SEÇKİN SAVUNMA

ESTABLISHMENT AND DEVELOPMENT

Our company was founded in 1994 in Huğlu for the production of shotgun parts. In 2004, it was taken over by Mr. Mustafa Sevgili and his son Mehmet Sevgili, and relocated to the Beyşehir Industrial Zone, where it has continuously increased its production capacity and strengthened its position within the sector.

PRODUCTION AND TECHNOLOGY

Seçkin Savunma has become a trusted brand in a short time with its innovative production methods, high-quality raw materials, and expert team. Closely following technological advancements, our company offers a wide range of products, providing tailored solutions with various barrel types and shotgun models to meet the needs of its users. Seçkin Savunma takes pride in being the No.1 choice in barrel manufacturing.

R&D; AND PRODUCT DIVERSITY

Placing great importance on research and development, our company continuously advances in the production of rifled firearms, smoothbore firearms, and barrels. By constantly renewing our production technologies, we provide a diverse product range designed to deliver the most suitable solutions for our customers' needs. Our leadership in barrel manufacturing is the strongest proof of our innovative R&D; approach.

VISION AND GOALS

Seçkin Savunma aims to become a strong brand in both national and international markets with its innovative design approach and high production standards. With a customer satisfaction-oriented service philosophy, combined with our principles of quality and reliability, our company is committed to ensuring sustainable growth.
