Since 1994

SEÇKİN SAVUNMA

Our company was established in 1994 in Huğlu Town by 8 entrepreneurs to produce pieces of shotguns. In 2004, Mustafa SEVGİLİ and his son Mehmet SEVGİLİ took over the other shares of the operator and transferred the production to Beyşehir Sanayi Sites. Along with the production of shotguns for many different companies, shotgun barrels began to be produced at these times. The company, which continuously increases its production capacity, also has a say in the sector especially in the production of barrels, working with producers in different regions of the country as well as producers in other countries. Day by day, our company continues to add rifled barrels, tactical barrels, pistol barrels in production lines with new Technologies and production methods.

In 2015, Seçkin Savunma, which wants to reveal its experience and mastery in its own product, decides to produce an Over&Under hunting rifle and starts its R&D studies. Afterwards, Seçkin Savunma started to produce Over&Under Shotguns and presented it to hunting enthusiasts under the name "Seçkin Arms". Day after day, Seçkin Arms is adding new gun models and platforms like; Pump Action Shotguns, Single Barrel and Rifled Single Barrel Shotguns, AR-15, Semi-Auto Shotgun, Magazine Fed Shotgun.

We Are Number 1 in the BARREL
